

# WHITE SANDS SOLAR

Philippines

**60MW**

Install Capacity

**95GWh**

Estimated annual generation

**50K**

Tons of CO<sub>2</sub> emissions offset annually

**40K**

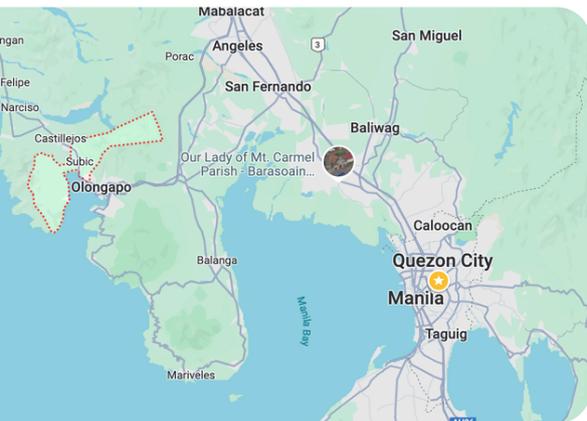

Households served power

**500**

Local jobs during construction

## PACIFIC IMPACT

**Pacific Impact Development** is a renewable energy developer focused on utility-scale solar, wind, hydro, and battery storage. The team has deep expertise across finance, engineering, and stakeholder engagement, managing projects from development to operations. Pacific Impact delivers high-quality assets that support climate goals and local economic growth.

## IMPACT

White Sands Solar will offset approx. 45,000 tons of CO<sub>2</sub> annually, generate clean electricity for over 45,000 homes, and create 500 jobs during construction. It contributes directly to the Philippines' renewable energy targets while supporting regional economic development.

## WHY WHITE SANDS SOLAR?

This 60 MW solar project is strategically located near a recently upgraded substation. The area offers strong solar irradiance, access to robust transmission infrastructure, and proximity to high-value energy offtakers. With growing demand for clean, reliable power in the region, the project is well-positioned to support grid decarbonization while enabling future energy partnerships. The exact site remains confidential during initial development.

## INVESTMENT OPPORTUNITY

Currently in early-stage development, this 60 MW solar project presents an opportunity for early capital participation with project co-developers in a high-demand, high-growth area. Initial assessments are underway, with site acquisition underway and permitting in progress. The project is targeting commercial operations by 2027, with potential offtake via retail energy supply contracts.

## PROJECT OVERVIEW

<b>CAPACITY</b>	60 MWp
<b>TECHNOLOGY</b>	SOLAR PV - FIXED TILT
<b>ANNUAL GENERATION</b>	95 GWH/YEAR
<b>PROJECT CAPEX</b>	US\$40 M
<b>TARGET COD</b>	Q4 2027
<b>LAND AREA</b>	40-50 HECTARES
<b>STATUS</b>	SITE ACQUISITION

### OUR PROGRESS
